

Dear Fellow Mopar Enthusiast:

We wanted to get a letter out to our customers to **be assured that Layson's Restorations Inc. is open for business and is shipping**. We are unique in that we are considered in our State an essential business (auto parts suppliers) and because of that we are not forced to close during this Virus quarantine that is occurring throughout the country.

Our employees are safe and working alone in separate zones that are at least 30 yards apart (not just 6 feet) and we are taking separate lunch and work breaks to maintain distance in an abundance of caution. Those that have concerns at home or small children from school are staying at home. For this reason our normal order/ to ship rate has increased from 24 hours to 48 hours or even longer depending on the part mix on any given order.

We were both lucky and unlucky when this virus started to affect the country as we had already increased our stock in our warehouse to prepare for the upcoming spring and summer busy season (lucky – as many suppliers are now closed down)– so many items are in stock, but also are now noticing a drop in sales (unlucky) and like all small business in America right now are growing concerned about the future mortgage due and other associated monthly costs. So this letter is also a reach out to ask for your continued support to help us and our employees get through this rough and stressful time.

We wish for all our customers and America in general to stay safe and secure in this hopefully short time span of Virus concerns. We are an employee owned company and we all hear at Layson's hope that you and your family's weather this storm well and become all the stronger from it. It's a good time to get re-acquainted with the children that are usually running from school to sports, or other extracurricular activities – so in a way this gives us parents an excuse to spend more time with them – I know it has helped my family personally out to “camp” in place and watch old movies and to come together more than ever before. Elderly Neighbors we have not seen or talked to in many weeks we are now helping with food shopping, getting the garbage out and or yard work through signs through the living room windows with much satisfaction I may say than anything we may give or do during the Holiday's.

It's a time to get back to what American stands for – what is important – what we share and strive for always maybe in our heads but may not “act” upon it. For us – it's been like going back in time when neighbors new everybody and socialized more with each other than with the computer or cell phone. It's re-gaining the “neighbors” in a neighborhood – sharing with your kids and loved ones and taking this down time and turning it into something positive and of coming together in our neighborhoods and communities all around this great country.

We appreciate all the support we have had over the years from our customers, suppliers and past and current employees. We will always continue to strive for high quality parts and technical knowledge to support those parts we sell. We look forward to your call and to support your needs for your project now and into the future. Take care.

Dave Layson
